

M/s. UD CHEMICAL SERVICE

TRADING & CHEMICAL SUPPLIER

Alum powder (commonly known as Fitkari) is a naturally occurring mineral salt—most frequently Potassium Aluminum Sulfate—celebrated for its powerful astringent, antiseptic, and coagulating properties. Widely used across skincare, traditional medicine, cooking, and water treatment, it is a highly versatile household staple.

ALUM POWDER

PAC POWDER

lime powder usually refers to one of two entirely different things: a mineral powder used in construction and gardening, or a dehydrated citrus fruit seasoning

CAUSTIC SODA

SULFAMIC ACID

SWIMMING POOL CHEMICAL

ETP CHEMICAL

WTP & RO CHEMICAL
